From the Superintendent...

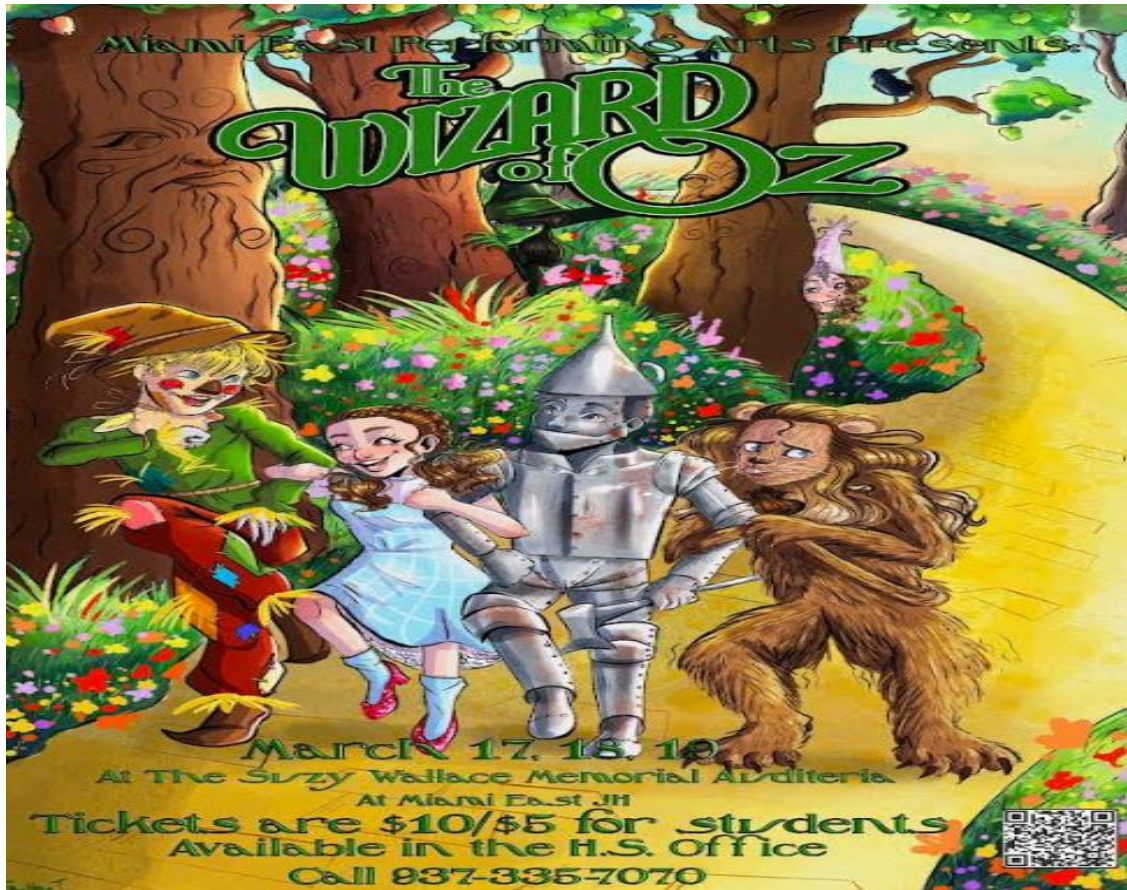

V Formation!

Until recently, scientists could only theorize as to why geese and other large, migratory birds adopted the V formation for flying long distances. Most ornithologists believed that this formation made for more efficient flying but could offer no hard proof.

However, a new study put this theory to the test. A team of scientists taped heart monitors to a group of geese that were trained to fly behind a small airplane. They discovered that the heart rates of the birds were lower when flying in a V than when flying solo. Migrating birds use the "squadron" formation because it allows them to glide more often, conserving energy. The aerodynamic V shape reduces the air resistance, allowing the geese to cover longer distances. In fact, a flock of geese can fly 70 percent farther by adopting the V shape rather than flying in isolation.

The V formation may offer other benefits as well. Each bird has an unobstructed field of vision, allowing flock members to see each other and communicate while in flight. The goose at the head of the V is not necessarily the leader of the flock. Apparently, geese take turns leading. As one bird tires, it drops to the back of the formation and another takes its place. Now that's what we call teamwork.

What can we learn from the geese? Humans, like geese, were created to work together and to support one another. When we encourage each other we can accomplish amazing things — much more than trying to work alone.

FINALFORMS

FinalForms

We are very excited to announce that the Miami East Local Schools Athletic Department has partnered with FinalForms, an online forms and data management service. FinalForms allows you to complete and sign athletic participation forms for your students. The most exciting news is that FinalForms saves data from season-to-season and year-to-year, meaning that you will never need to enter the same information twice! FinalForms also pre-populates information wherever possible, for each of your students, saving you time.

You may review your data at any time to verify it is current. You will be required to sign your forms once per year and after any update.

We are asking that ALL parents of athletes in the spring of 2023 use FinalForms.

Physical forms will still need to be printed off and signed by your doctor, however only pages 3 and 4 are required to be physically turned into the Athletic Office. You will print this directly from Final Forms.

Physical will still require a physician's signature on the physical form and turned in to the athletic office.

Kindergarten Registration

Kindergarten registration dates for the 2023-2024 school year have been set for Thursday, May 4th and Friday, May 5th, from 9:00 a.m. to 3:00 p.m., in our kindergarten classrooms.
