## CLASSROOM PLANTS

This year, our third grade team was chosen to receive funds from the Miami East Education Foundation to spend on classroom plants! Our goal is to incorporate science standards into our daily routines and procedures. Each third grade classroom was able to choose which plants to buy, many classrooms named them, and each class had a hand in researching the best way to care for them. Not only do the plants brighten our spaces and help purify our air, they teach us valuable lessons about how to care for living things. We have learned when to water, how much light to give, and how plants need nurturing environments to grow. Thanks to MEEF for fully funding this grant!

Two immediate board member openings!

A great way to be involved in supporting the Miami East Education Foundation mission to enhance the educational experience of Miami East students.

Please contact Shelly Davis for more information. Please call or text at 937-335-5942 or e-mail [shelly071964@yahoo.com](mailto:shelly071964@yahoo.com).

We look forward to hearing from you today!

### **FFA Team Competes at American Royal, Kansas City**

Three members of the Miami East-MVCTC FFA Chapter recently represented Ohio at the 123rd American Royal Livestock Judging Contest in Kansas City, Missouri. The team consisted of Rhylee Eichhorn, Wyatt Black, and Dustin Winner. The members were able to participate after placing third in the Ohio FFA Livestock Evaluation competition in the spring of 2022.

The focus of the American Royal Livestock Judging Contest was to develop the skills necessary to effectively evaluate beef, swine, sheep, and goats. During the contest the contestants judged 10 classes of livestock and gave 6 sets of oral reasons. The team placed 13th with Rhylee Eichhorn was the highest placing individual from Miami East.

While in the Kansas City area, the team visited and practiced judging at Kansas State University. They also had practices at the Brian Habjan Family Farm and with Ward Brothers Cattle. They made stops at Cavendar's Western Wear and Cabela's. Additionally, the team ate at local restaurants such as Joe's Gas Station BBQ, the Hereford House, and Fritz's Railroad Café where the meal was delivered via a toy railroad train.

Prior trip preparations included practices at the Eichhorn Showpigs (Rhyan and Alisha Eichhorn), Lynn Allen Goat Farms (Brent and Christine Pence), and Fine Brothers Show Sheep (Bryan and Lindsey Fine). Additional support was given by the Miami Valley Career Technology Center and the Miami East FFA Alumni and Supporters.

During the Livestock Evaluation Career Development Event (CDE), members rank breeding and market classes of beef, sheep and swine and give oral reasons to back up their decisions. Members participating in this CDE make accurate and logical observations of livestock, decide on the desirable traits in marketing and breeding livestock, and select and market livestock that will satisfy consumer demands and provide increased economic returns to producers. Understanding what makes a good market or breeding beef, sheep or swine is valuable knowledge for the decisions every livestock producer has to make. This CDE also encourages students to communicate proficiently, interpret data and work as a team — skills that translate into other career opportunities.

### Affordable Connectivity Program

#### What is the Affordable Connectivity Program?

The Affordable Connectivity Program (ACP) replaces, expands, and makes permanent the FCC temporary Emergency Broadband Benefit (EBB) program, which helped low-income households afford internet service during the pandemic. ACP will help ensure that eligible households can continue to afford internet connections needed for school, work, health care, and more. The program includes:

- \$30/month for broadband services for eligible households
- \$75/month for households on qualifying tribal lands
- A one-time discount of up to \$100 for a laptop, desktop computer, or tablet purchased through a participating provider (discount is not available through ACP if you received it under the EBB program)

#### Who is eligible to receive the ACP benefit?

A household is eligible if one member of the household:

- Has an income that is at or below 200% of the Federal Poverty Guideline
- Participates in certain assistance programs, such as SNAP, Medicaid, Federal Public Housing Assistance, SSI, WIC, or Lifeline
- Participates in Tribal specific programs, such as Bureau of Indian Affairs General Assistance, Tribal TANF, or Food Distribution Program on Indian Reservations
- Is approved to receive benefits under the free and reduced-price school lunch program or the school breakfast program, including through the USDA Community Eligibility Provision
- Received a Federal Pell Grant during the current award year
- Meets the eligibility criteria for a participating broadband provider's existing low-income program

### How to Apply

- 1 Contact your preferred participating provider directly to learn about their application process.
