EGG DROP!

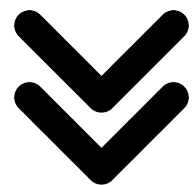

Look up in the sky! Is it a bird? Is it a plane? No, it's an...EGG! During the annual Egg Drop, our 4th graders watched their homework get tossed off the roof of the Junior High School on Wednesday of this week. What is an "Egg Drop"? The egg drop is a design-based experiment in which students construct a container to transport a raw egg safely from the roof of the school to the playground surface below. More eggs survived the big fall than ever before. We have some design-savvy kids here at Miami East. Humpty Dumpty might even be safe with a ME Viking around!
